MAILDOC™ DOCUMENT MANAGEMENT SOFTWARE

Online Demo at www.formax.com

Formax MailDoc™ is a powerful, easy-to-use software suite that generates Optical Mark Recognition (OMR) or Bar Code Recognition (BCR) marks directly on documents. This provides intelligent inserting of varying multi-page documents such as invoices and statements. MailDoc™ also allows you to fully utilize a Formax inserter equipped with OMR or BCR through enhanced security, target marketing with selective feeding and diverting of sets based on selected criteria. Two versions are available, Beginner and Professional. The optional Postal Module increases savings by running addresses through CASS, PAVE list management software using NCOA for list certification.

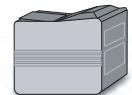

BCR Marks

Invoices or Statements are simply exported and saved in one PDF file. No integration is needed with your existing accounting software.

Select OMR or BCR mark functions and location of marks. Create templates for each recurring job for quick and efficient processing.

Documents are printed at any speed from MailDoc with OMR or BCR marks ready for intelligent insertion.

Formax inserters provide secure, automated insertion of documents.

COLORMAX7 DIGITAL COLOR PRINTER

The ColorMax7 Digital Color Printer uses the latest Memjet® technology to produce full-color CMYK output at three times the speed of traditional shuttle head printers, at one third the per-page cost. The print head has 70,400 ink nozzles and no moving parts, for higher speeds, lower ink and maintenance costs and less noise. With its thermal inkjet technology, the ColorMax7 doesn't require heat or contact to create an image, so it can safely be used with pre-printed envelopes and windowed envelopes without damaging the window or marring the original image.

cmColor RIP & Color Match Software is specially designed to work with the ColorMax7. It utilizes the powerful Harlequin® RIP engine to provide outstanding overall image quality, with predictable and repeatable color standardization. This software-printer combination is ideal for businesses and commercial printers who produce full-bleed color envelopes, marketing materials, invitations and much more.
